

Contents

Preface	5
Fuel from waste and its place in thermal processes <i>Wandrasz J. W.</i>	7
Waste policy in EU and its environmental consequences <i>Pikoń K.</i>	19
Assessment of the impact of using alternative fuels in a cement kiln on the emissions of selected substances into the air <i>Oleniacz R.</i>	37
Analysis and estimation of the heating value of fermented waste from elemental analyses <i>Čepanko V., Baltrėnas P., Buinevičius K.</i>	51
Pollutant concentrations from coniferous waste wood thermal conversion in the small heating boilers <i>Juszczak M.</i>	69
CO, NO, NO _x , hydrocarbons and dust concentrations in flue gas from straw pellet combustion in the burner situated in the small heating boiler <i>Juszczak M.</i>	85
Efficiency of desulphurization exhausted gases in fluidized absorber <i>Olczyk W.</i>	85
Optimal processing conditions for carriers and packing applied in chemical and power industry <i>Krajewski W., Kalinowski K., Najzarek Z.</i>	97
Investigation of physicochemical variations of waste substances properties during combustion process in grate fired experimental incineration system <i>Jaworski T.</i>	127
Implementation of the online-balancing program and online heat flux measurement in the solid waste incineration plant MHKW Kassel <i>Beckmann M., Rostkowski S., Tanner N.</i>	141
Research of organic substances as components of combustible mixtures and their influence on emissivity during combustion and co-combustion <i>Wandrasz, A. J., Wandrasz A., Z.</i>	149
Investigation of cyclohexane conversion in plasma arc <i>Czekalska Z.</i>	165

Fuel made of textile composite wastes <i>Stelmach, S., Cieślak M., Gromadzińska E.</i>	179
Utilization of biodegradable polymers <i>Landrat M.</i>	187
The parameters of autothermal incineration of sewage sludge <i>Nadziakiewicz J., Janusz M.</i>	203
The influence of time of disposal of sewage sludge on their selected parameters <i>Kozioł M.</i>	213
Analysis of Fixed Costs and Beneficial Effects of Waste Recycling <i>Alwaeli M.</i>	231
Environmental impact of transportation <i>Pikoń K., Gaska K.</i>	247
